ORDER

Defendant has filed Objections to the testimony of Richard A. Lemen, Ph.D. (Carter doc. 141.) Defendant's objections are based on the assertion that Dr. Lemen proposes to testify with regard to areas outside of his areas of expertise. The Court presumes that the Plaintiffs intend to have Dr. Lemen testify live at trial. Defendant's objection is **sustained**. Dr. Lemen will not be allowed to testify as to matters outside of his areas of expertise. However, the Court can not, at this time, determine the admissibility of specific questions which may be posed to Dr. Lemen at trial.

SO ORDERED, this 9th day of December, 2005.

JAMES E. GRAHAM
UNITED STATES MAGISTRATE JUDGE
